

Goals for Directors Training

- Summer Springboard aims to continue the tradition of providing unique and compelling summer experiences for college-bound teens as they look to grow, expand and impact their communities.
- Our goal is to use our decades of experience in areas such as service learning, education, international travel, media, and program operations to create the most impactful domestic summer enrichment programs for college-bound teens.
- We are here at DT to learn how to deliver these enriching programs in the safest, most fun, and most impactful way possible.
