SPRINGBOARD

Look Inward. Go Upward.

AUTHORIZATION FOR EMERGENCY CARE OF STUDENTS WITH ALLERGIES

Date: 1/19/2026

Dear Doctor:

Your patient, Harrison Bartley, is enrolled/enrolling in a Summer Springboard program which is a physically active and academically immersive experience for either 9-12 days in length. Summer Springboard requests that families of students with known allergies provide an emergency care plan for the prevention of anaphylaxis in the event the student comes into contact with a certain allergen(s), as described below.

Please complete this instruction record. This will remain in the student's medical record and be transferred to staff working directly with the student so that Summer Springboard may assist with the allergy care and needs of your patient. If you need to provide further instructions or clarifications, please do so on a separate sheet of paper, which will become part of this record and will be kept on file with this form.

Signature of Parent(s)/Guardian(s)

To be completed by physician

Student's Name: HARRISON BARTLEY

IF STUDENT IS SUBJECT TO ANAPHYLACTIC REACTION WHEN IN CONTACT WITH THE FOLLOWING ALLERGENS:

Please provide a complete list of all events and/or substances that may trigger a severe allergic reaction (eg, anaphylactic shock) in the student. Use additional paper if necessary:

environmental triggers: trees, grasses,
weeds, mold, dust mites

Please provide a complete list, to the best of your knowledge, of signs or symptoms that indicate the student has come into contact with an allergen and that requires emergency treatment:

- ☒ Shortness of Breath or Difficulty in Breathing
- ☒ Swelling of the Face or Lips
- ☒ Hives
- ☒ Vomiting

Allergy
Waiver
