

# Facilitating a Successful PPT

Review PPT materials between DT and arrival to campus.

- During weekly meetings with PD (for CDs), ask questions you are still unsure about.

Update your Pre-Program Training Schedule Template. Make it accurate for your campus (times, locations, topics).

Use PPT as a time to learn your team's strengths and areas for growth.

Your PD will be there to support you, but not run the show – it's your time to shine!
