

Scenario

During a campus tour, a mentor notices that several students in their group are not wearing their name tags. When asked, one student says, “I took it off because it was uncomfortable,” while another says they “left it in their room.”

A third student mentions they don’t like wearing their name tag because it has their name on it and makes them feel “too visible” in public spaces.

- Is this a violation? Why or why not?
- Is this a minor issue or a safety concern?
