

# Let's see it in Action!

**Skit 1:** It's 9:45 AM—the high-pressure transition from Orientation to class.

**The Conflict:** Mentors are walking with their groups, but two Mentors have stopped in the middle of the hallway to look at a schedule together. Behind them, their students are starting to drift, some are stopping to use the restroom without telling anyone, and the "flow" of the hallway has stalled.

**As leadership, what steps may have been missed and how do we fix this issue going forward?**
