Day 1: Check-In Day

Setting:

Day 1 (Sunday) of the first session at UCSD. Staff have just completed Pre-Program Training and feeling anxious, but confident, about the program and what's to come.

What Happens

It's 11:45 PM and the staff meeting + room checks have already happened. Natalie is walking to the bathroom when she hears loud noise and laughing coming from a student's room. She knocks on the door and is surprised to be greeted by Sasha and Roman along with three students (two girls and one boy). They let her know that everything is alright and that they were just finishing up a board game.

When Natalie returns to her room, she sends a text to you (the CD/AM) and explains what she saw, but that she doesn't want to overstep Sasha and Roman since they have experience being a mentor, and it seems like the students like them.
