

Art of Investigation

- Write up a staff incident report detailing the facts of what has happened so far.
- Go over what the policies are again as a whole group and discuss what's appropriate vs inappropriate behavior as a mentor and staff member.
- Speak with Natalie separately and give her the space to share her side of the story with specific examples.
- After the staff meeting, pull Sasha and Roman aside and discuss their words/actions while also hearing their side of the story. Reiterate that certain behaviors are not acceptable and implement a PIP (Performance Improvement Plan) for the both of them.
- Ask Sasha and Roman to step outside as their behavior is unacceptable. Discuss further with staff about what's going on between them two and students.
- After the staff meeting, pull Natalie aside and gather more facts/details about what's been happening with Sasha and Roman. Give her the reassurance that you're on her side.
- Once emotions have come down, have a discussion with the entire team about acceptable behavior and what the expectations are for the rest of the session. Make sure they know that you are the leader and you have the power to send them home at any point.
