Day 10: The Situation Explodes

Setting: Day 10 (Tuesday of the second week)

What Happens:

A commuter student asks Natalie (commuter mentor) if she can have her number so that she can let her know if she's running late, etc, etc. Natalie lets her know that she can't give her number out, but that the student can message her on Reach.

The student pushes back and tells Natalie "well other students have been texting with Sasha and Roman" and then dives into how students have been consistently texting with them via a group chat. The student says her friend is in the group chat and they've been "planning things".

Later that day, Emily (the friend) approaches Natalie and shows her the group chat. While looking at the messages, Natalie notices that some of the messages are about students skipping class so they can go to the beach and Sasha and Roman saying they'll mark them present on Reach. Natalie calls you (CD/AM) right away and explains the situation.
