

# Art of Investigation continued...

## DAY 6.

It's Saturday and it is the city exploration day. You have a full day of activities ahead of you. After a long day in the sun, you decide as a team to stop at the local grocery store for snacks and ice cream before returning to campus. Since you're all EXHAUSTED one staff member asks to stay on the bus.

**What risks are you considering as you set up this student visit to the store?**
