

Scenario 1

- You have decided that it's not appropriate to send 7 students involved home without more evidence outside of this one student, but have handled swiftly and the group is back on track... as you begin working through written contracts for all involved.
- Next you receive a chat from Your Program Director saying that: Charlotte's mom called in, very upset. Was calling in concerned about "drugs and sex" on the program. She said that her daughter told her that the "counselors are not willing to look into the bags of the students." Said something along the lines of "you bet the police would look in the bags if they came." Charlotte said she "is worried about her daughter's safety" because all the students are mad at Charlotte and hate her. She also wants to know what else is planned on the SSB program because she heard from her daughter that she's bored so she might as well fly home early.
- PD asks you to call the mother (Kitsy) back immediately to discuss as she requested to speak with the person on campus.

What do you do? Walk us through the steps.
