

How to Follow up with a Case

SSB HQ (on-call) staff and Program Directors will be responsible for keeping cases neat and tidy on the back end during the summer.

- Program Directors will be reaching out daily (every AM, usually) to Campus Directors to check on case status and make sure cases can be 'closed'.
 - Ex. If a student was sick the day prior to get any updates or see if they are better ; if there was a flight delay and making sure all students arrived, etc.
- If a mentor submits an Incident Report, the CD should be the go-between with the PD about the resolution.*
 - *Unless the mentor writes in the incident "case closed", meaning there's no follow up required.
- PD and CD should come up with a good system to keep up with any ongoing cases each week.
