

Scenario 1

Update 2: While you were debating what to do Hector calls his dad (Xin LinTest), he explains to his dad how helpful people have been since he arrived and how kind the staff member was to give him some ibuprofen.

Dad, while happy that Hector got immediate attention, was concerned how freely Hector accepted “random pills” from a stranger. Dad calls into the on-call line to express his concern and frustration that he wasn’t informed of this prior to his son calling.
