

Privacy vs. Confidentiality

- ❖ **HIPAA** - Health Insurance Portability and Accountability Act
 - Not obligated, we are not a school or medical practice (we do not treat, diagnose, or invoice for services) but are responsible for securing information
- ❖ Confidentiality relates to sharing information only with authorized persons.
 - Doctor-patient relationship or business associate
- ❖ Privacy relates to right to have some control over how personal information is shared
 - “Need to know” basis examples of information provided to SSB:
 - Program staff
 - Meals (allergies specifically)
 - Medical / Mental Health Conditions - ie, Autism
