

- Rooming Policy
 - SSB's rooming assignments are based on **gender identity**, as communicated to SSB. If a student is transitioning (their gender) or identifies as non-binary or non-conforming, we will discuss with them what type of room they prefer or are most comfortable with (either male or female).
 - **All students and families are welcome to communicate with SSB to provide more information on what type of lodging experience will be the most comfortable for their student**
- Rooming Preferences
 - You'll find rooming preferences in your Master Student List, located under Roommate Name

**Gender
Considerations**
