

# Summer Staff Portal Practice

Now it's time to practice! Using your Summer Staff Portal, practice finding the following information:

1. Find your Emergency Action Plan. What is the nearest clinic or urgent care for your program?
2. Name one confirmed excursion for the second Wednesday of the first session. What time is the bus pickup, and what time is the activity scheduled for?
3. What time should mentors arrive to the airport for the first airport pickup for session 1?
4. What is the name of an instructor of a health and medicine course at your campus?
5. Find your Campus Tracker. Provide the name of one agent student.
