

Disciplinary Process

Step #3: Dismissal from the Program.

Preferred process for sending a student home:

1. Before informing a student directly that they are going home, first call and confirm with Program Director.
2. Student(s) are informed of their removal and clearly understand why the decision has been made.
3. Have each student call home and inform guardian(s) of violation and that the next step is for them to arrange transportation to return home.
4. Ensure students are calling their parents — some students will fake a call or call a friend to go through the motions. Have Director or Mentor standing by, available to overhear and speak to parent if needed.
5. Director or Mentor should get on phone with parent to say that SSB will be following up to receive new flight or departure info in X amount of time (that you / student establish and set)
6. Follow up with HQ
7. Remove student(s) from programming activities and ensure they are kept safe and fed until they depart the program.
8. If a student is dropped off at airport, staff should stay at airport until they pass through security and call and inform HQ (primary).
9. Debrief with remaining students and staff.
10. Complete Incident Report.
