

1. Supervision & Boundaries

- Each campus has designated boundaries that identify the areas students are permitted to access during the program. While on excursions, boundaries will also be set.
- Must remain within these established boundaries unless participating in an approved program activity or excursion supervised by staff.
- Students are not allowed to travel alone and must travel in groups of three or more at all times while participating in the program
- Students are required to remain under staff supervision and may not leave their program site or group without permission
