

2. Personal Safety & Wellbeing

- **Students Must:**

- **Maintain their health (eat, hydrate, take medication)**
- **Report any illness or concerns to staff**
- **Follow all safety instructions from staff**

Scenario:

During an excursion, a student starts to feel nauseous but doesn't want to "ruin the trip," so they don't tell staff. Another student quietly mentions to a mentor that their friend isn't feeling well.

- What's the risk?
- What's the policy?
- What's your move as a leader?
