

8. Sex and Sexual Acts

- In order to promote an experience that is safe and inclusive of all students, and respectful of local cultural norms, students are not permitted to engage in any sexual acts during SSB programs.
- Exclusive relationships and/or public displays of affection, even if consensual, are also not considered appropriate behavior while on a SSB program.
- These expectations help ensure the emotional and physical safety of all participants and maintain a positive group dynamic.
- Any violation of this rule may result in immediate expulsion from the program based on SSB's best judgment and understanding of the situation.
