

Staff Support Navigating Campus

Students come to campus with a variety of experiences.

Some have:

- Traveled the world
- Never left home
- Experience speaking multiple languages
- Never woken up by their own alarm
- Never paid for things using a debit card
- Never been around so many new people
- Never had roommates or shared a room

Our Campus Staff is there to help students navigate this new and challenging daily environment.

Challenge and be a mentor for the campus staff to help them find ways to regularly support students to help them grow and lean into these new experiences.
