

SSB – CLUBS!

Clubs offer students an opportunity to socialize around an interest, recreation activity or hobby in smaller groups outside of their mentor groups and academic classes.

Some clubs have already been selected and prepared for each campus. Campus teams are free to select other clubs that align with their interests taking into consideration a very small budget for supplies and available amenities on campus.

Clubs meet up to 4 evenings during the program. Other nights are left open for teams to do whole group activities, or allow the students to continue meeting in groups.

1st Monday night - Mentors and ACs will organize a light all-resident activity - cupcake social, game night, etc in one area of the large common area. On the other side, mentors will help organize/setup the **CLUB FAIR!**
