

How Could Duty of Care be Violated?

Not managing program needs

Initial actions are important but providing *ongoing* support is critical.

- Staff check-ins
- Student or parent/guardian complaints
- Student illness and follow-up medical visits
- Near-misses or local partner performance

Not Communicating Effectively

Lapses in communication with key partners can lead to serious safety oversights.

- Stakeholders (parents, guardians, students, field staff)
- HQ teams
- Local partners
- Failure to Escalate + Inform
