

Responding to Incidents (Process)

Stabilize

- Ensure human safety, stay within scope of practice
- Secure the scene
- Call for or seek emergency support needs

Categorize

Non-Urgent: Updates or needs, may / may not require response.

Urgent: Problematic situations requiring a response

Emergency: Real or perceived events with potential for severe injury or threat to life.

Communicate

Establish facts:

- Who, What, Where, & When
- Actions thus far

Assistance needs:

- What & When

Planning:

- Follow up
- Touchpoints

Document

Ensure:

- Reporting completed
- Incident finalized
- Lessons communicated
- Escalate (in some cases our insurance needs notification in 48 hours)
