

Art of Investigation

- Call your PD and ask what should be done about Sasha and Roman
- After speaking with Roman and Sasha, as well as Natalie, write up a staff incident report detailing what happened.
- Ask Sasha and Roman to come into the office for a discussion. Explain that although they have experience as mentors already, they need to follow the rules and policies of the program. Give them a “verbal warning” of sorts.
- During staff meeting the next day, reiterate the staff policies and ensure that everyone is on the same page.
- Send a text to Sasha and Roman and let them know they have 10 minutes to wrap up the game and head to bed.
- The next day, pull the three students for a conversation and issue either an unofficial or official verbal warning. Call home if the verbal warning is official.
