

Art of Investigation

Day 6: Resolution

What Happens:

During your conversation with Jordan, you let him know that staff has been made aware of Jordan's letter, the threats made to Maya, and that he may potentially have weed and alcohol in his room as well. You explain that unfortunately this would be grounds for being sent home, but before anything is done you want to give him the space to tell his perspective of things. Visibly upset, he asks who snitched and said that he has weed and alcohol. Before you say anything, he says that it shouldn't even matter because his mom has no problem with him having the occasional drink at home.

After a 5 minute conversation explaining the code of conduct and policies on program, Jordan confesses to everything including having weed and alcohol and his intent to share it. He also explains that this is the first time he's felt this strongly for a girl and he was confused about his feelings and what to do.

After speaking with Jordan, you call HQ and let them know of what's happening and discuss next steps of sending Jordan home. After discussing with HQ and finalizing a plan, you call Jordan's parents and they arrange to come pick him up the following morning.
