

Scenario 2

A parent calls in to the SSB Mainline wanted to talk with the CD at GT to report that a Mentor has been behaving inappropriately with the students. She shares that during mentor groups, the Mentor held a discussion about this year's election and the status of Trump's trial. Additionally, the mentor has been "radicalizing" the students to become Pro-Palestine. The parent is livid that Summer Springboard would hire such incompetent staff.

She says she has screenshot evidence of the conversations between her son and the Mentor and is threatening to sue SSB. She is en route to the campus to pick up her son now.
